Kevin and Luis,

I was prohibited from checking or responding to emails or messages for the duration of the shutdown. I apologize for the inconvenience this caused you (it caused me great inconvenience as well!). The technical discussion – which attorneys will not be participating in- did not occur today. It looks like DEC is not available to reschedule that discussion until the afternoon of the 29th or the morning of the 30th. To my knowledge no official date or time has been set. I will let you know when/if it is.

Regards,
Lauren

Lauren:

I hope you are surviving the government shutdown and do not know when you will actually receive or be able to respond to this e-mail.

Luis Mendez already indicated Onondaga County will participate in the October 30 meeting via conference call and that has not changed. We have come to understand that a separate technical conference call or meeting may possibly be scheduled for October 17. If that is, in fact, accurate information, the County would request the opportunity to participate in that call as well. If there is no meeting or call on the 17th, we hope we can all talk on the 30th.

Thank you.

Kevin C. Murphy

Subject: Lower Ley Creek-Local Disposal Meeting

Dear all,

As many of you know, EPA is in the process of performing a feasibility study for the Lower Ley Creek Subsite of the Onondaga Lake Superfund Site. One issue that has come up in this process, and has the potential for significant cost savings, is the practicability of local disposal options. We would like to hold a meeting at our offices here at 290 Broadway on

Wednesday, October 30, 2013 at 1:30 pm to discuss this issue with the interested parties. Please let me know if you are available that day, whether in person or by phone, and who you anticipate will participate from your organization.

Lauren P. Charney
Assistant Regional Counsel
US EPA Region 2
